All supplies MUST be 100% cotton with no scrim!

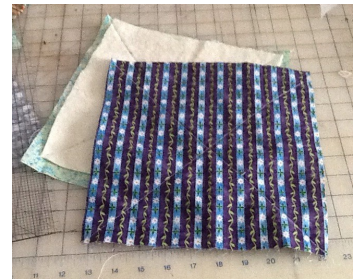

Cut:

2 pieces outer fabric, 10" square

2 pieces batting, 9 inches square

Centre a piece of batting on the wrong side of each piece of cotton.

With a slightly long stitch sew each pair diagonally from corner to corner.

Now make 4 darts in each piece. Fold 1 piece in half as shown and mark 2 1/2" down from the edge of the fabric and 3/4" in from the edge. Make 4 darts on each piece. Trim seam allowances to 1/4".

Place both pieces together with good sides facing. Using 1/4" seam allowance, sew both layers together, leaving a 3 inch opening centred across a dart for turning. Reinforce the beginning and ending of the seam.

Clip the corners and turn to the right side.

Top stitch all around about 1/8" from the edge which closes the opening.
